Network Resilience

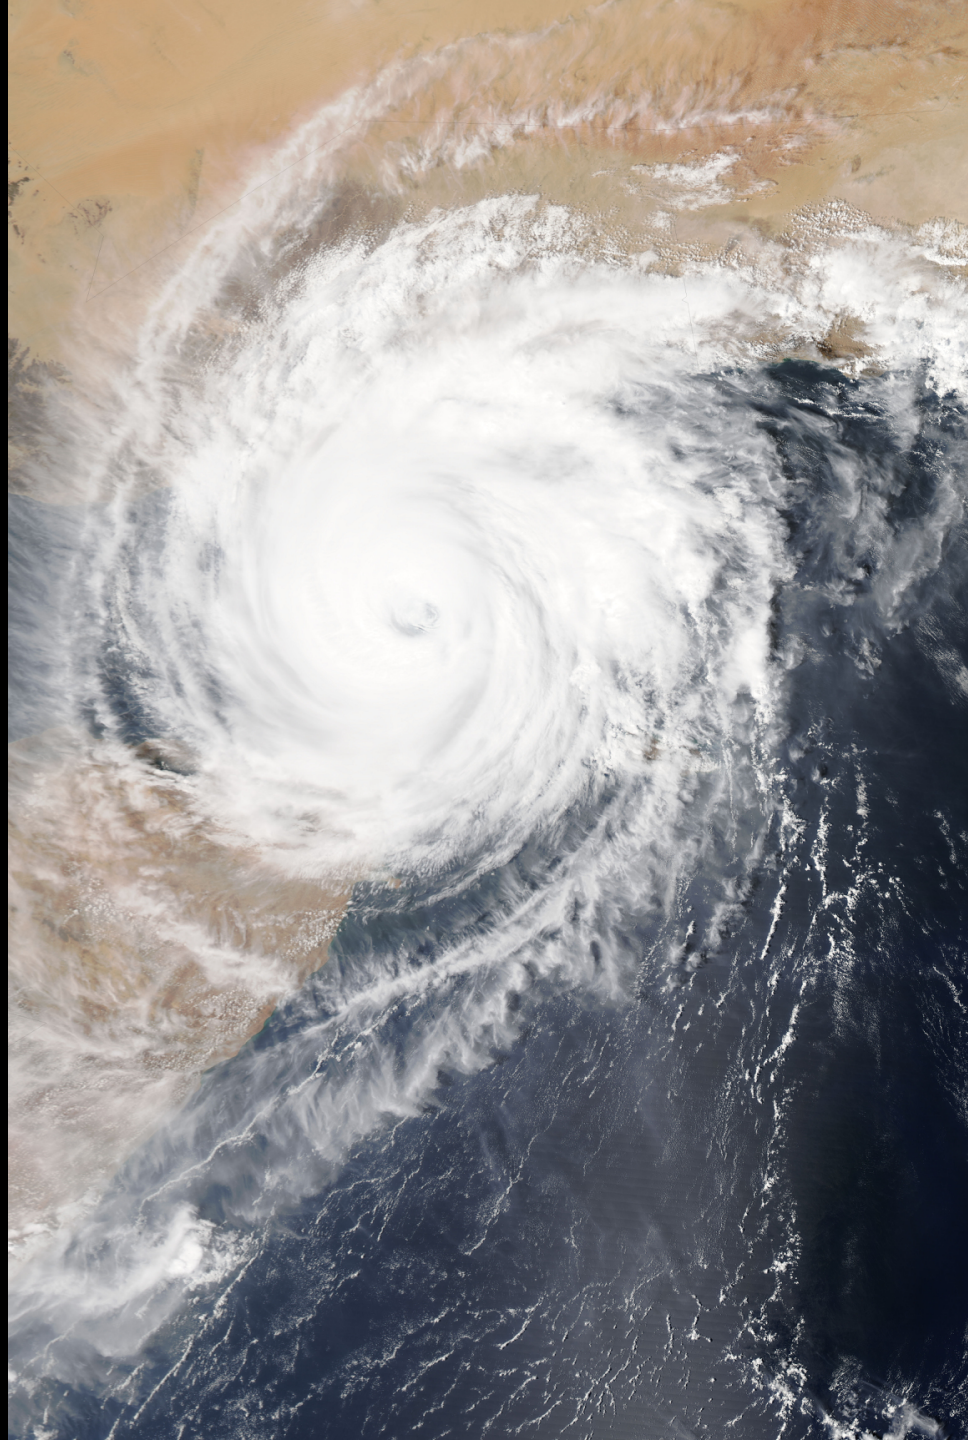

Tim Dykstra

Reliability

Philosophy:

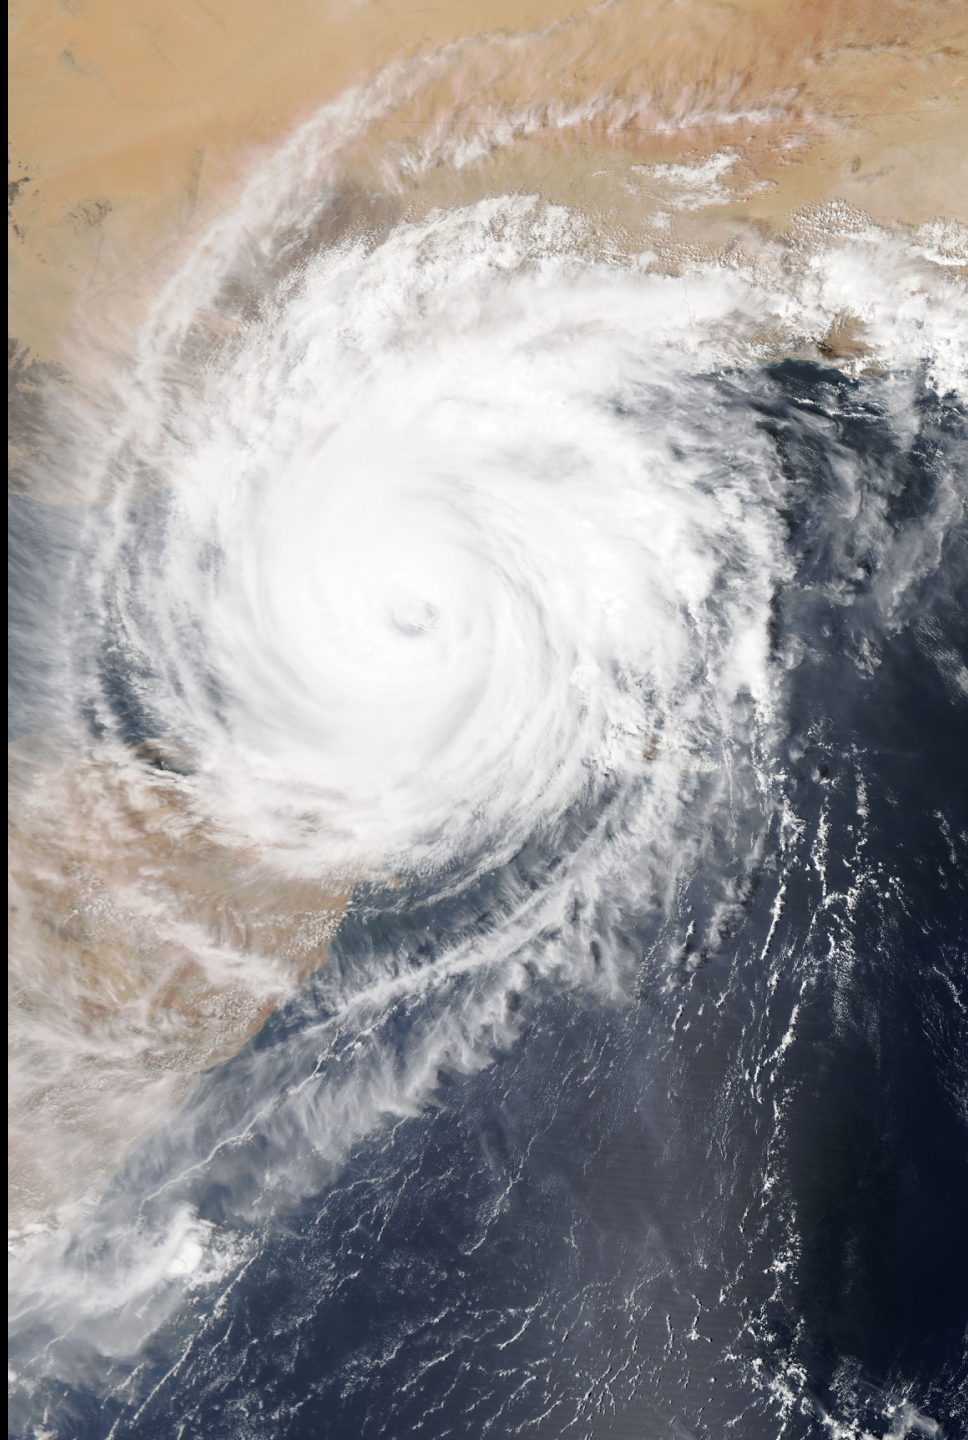

To design, engineer and maintain the very best wireless network as measured by us, third parties and most importantly our customers.

Design:

Our entire network is designed with diversity.

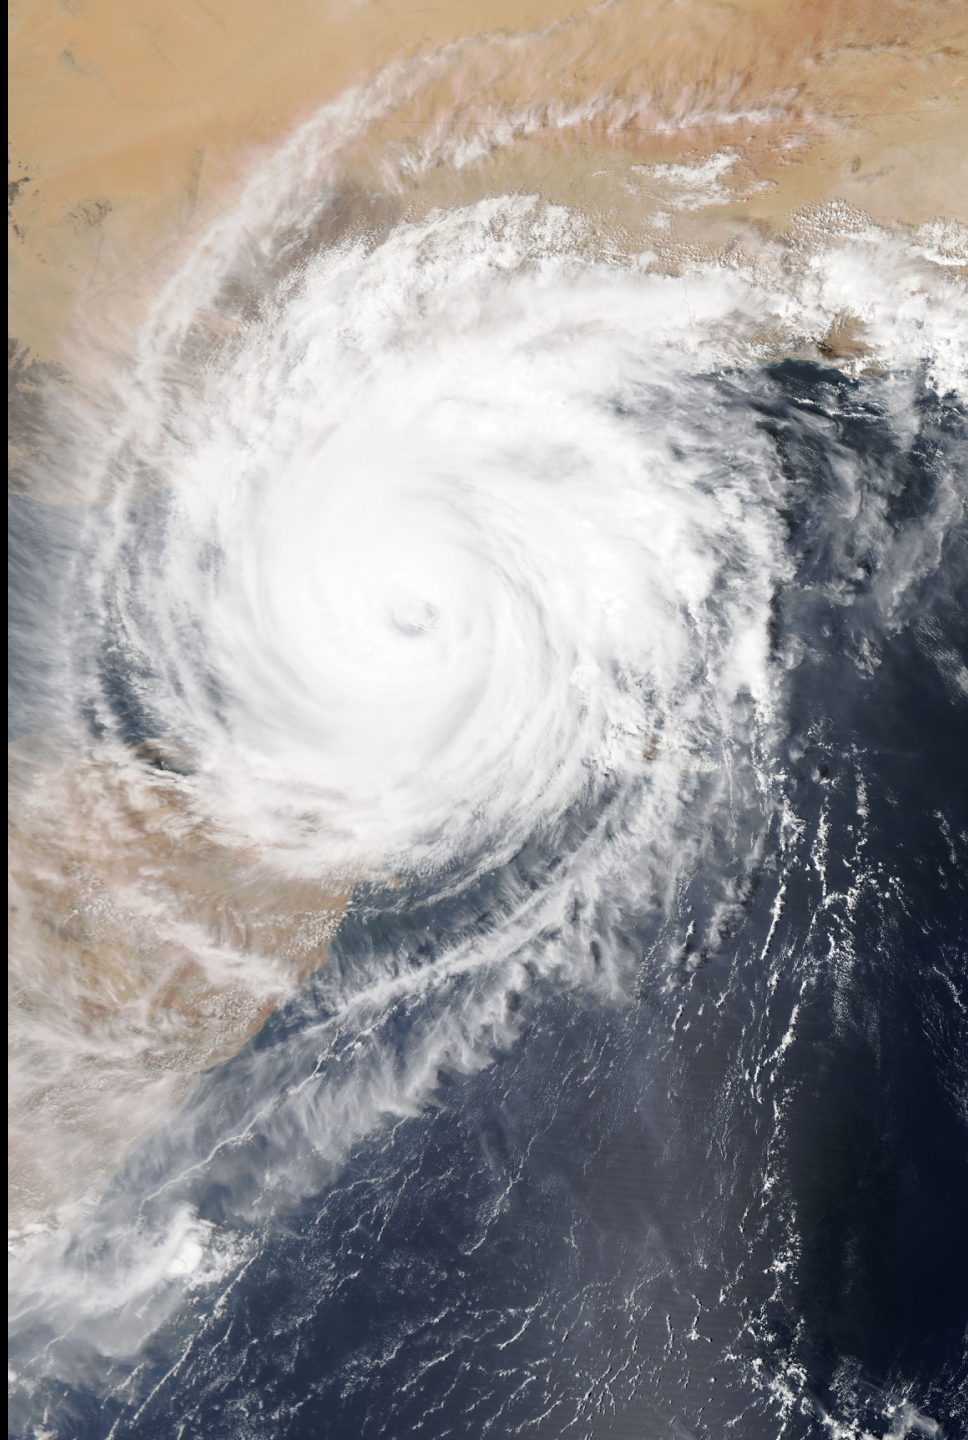

- power**
- transport**
- equipment/systems**

Engineer:

Our entire network is engineered to the highest standards.

- built to last**
- nationwide standards**
- incorporate latest technology**

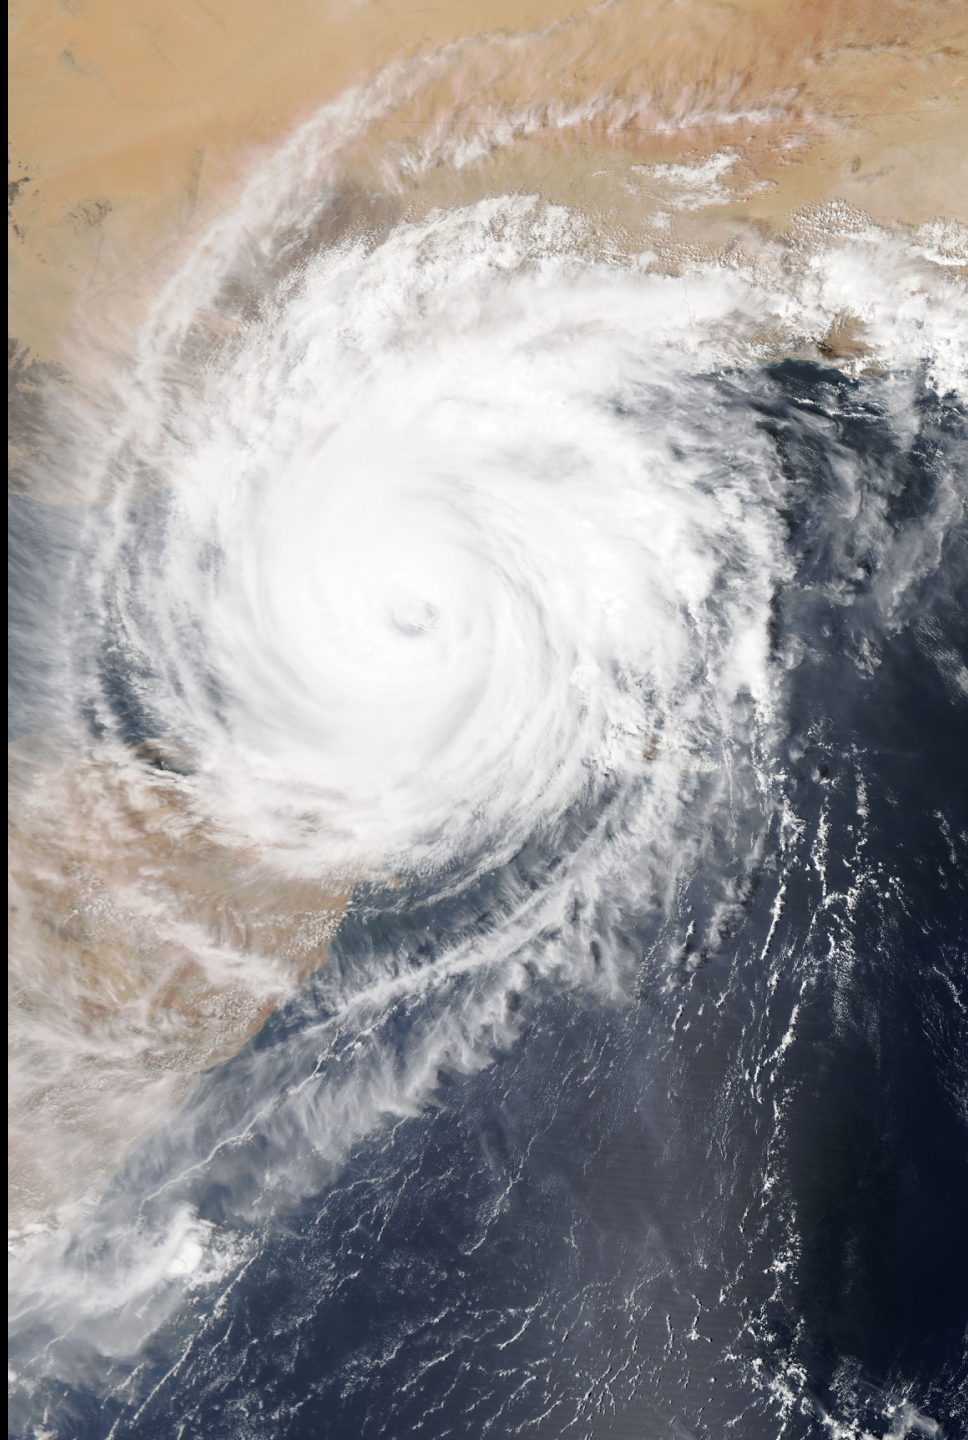

Maintain:

Our entire network team is

- Ready 24x7x365**
- Trained**
- Prepared**
- Culture**
