The Voyager 1949

Hurrah! The 1949 VOYAGER is here! Bessie Hatzopoulos, our Editor, and Mary Knisely, our Business Manager, worked hard to make the VOYAGER a success. In September, cries of joy were heard at the opening of the new Publications Office as Bessie and Mary called to order the first meeting of the VOYAGER Staff. They welcomed new staffmen and assigned positions. Ed Dickerson was named Advertising Manager. It was Ed's job to lay out territories for ad men. And it is to Ed that we owe a great deal: he worked diligently throughout the semester to solicit ads. Howard Harden and Sally Dixon drew up plans for the art work. Abstract art, rather than conventional art, is one of the many innovations of our year-book. Thelma McDonald was named assistant to the Staff Photographer, Ray Bateman. It was Thelma's job to schedule appointments for Sophomores and Freshmen, and she saw that appointments were kept . . . at least she tried.

For two months, Freshmen posed for Ray Bateman at the Technical Institute studio. Ray, armed with flashbulbs, was seen on campus and at social affairs. With the aid of J. C. Atkeson, Ray spent long hours in the lab developing and printing pictures. He did a wonderful job!

Joining our staff were Jennie Gretakis and Percie Trahadias as typists. They spent many hours deciphering the material presented.

Sports Editors were Pat Bridges, George Kiskinis, and Gloria Mirabella. The trio capably handled all sport write-ups and layouts.

There were LeRoy Spruill and Jane Kerwick who splashed out posters on wall space. Leona Cherin, Rickie Fleischman, and Bettie Yamalaki planned the compilation of club write-ups.

But most of all, the entire staff will always remember Miss Mary B. Gibbs, our sponsor. It was she, with her understanding attitude and interest, who steered us to port.

Students of journalism have always tried to keep up with the times and in doing so have elected to lead a life of constant change. The staff of the 1948-1949 HIGH HAT was not an exception. In an effort to serve the students and the college more effectively and to keep up with the new developments in the world of printing, the staff embarked upon a program of changing the method of printing to the more rapid and inexpensive technique of photo offset. Since this was a comparatively new technique in college newspaper publication, the entire staff worked from scratch, learning and improving as the year progressed. The result was a newspaper with the "New Look": a look of freshness and originality that would not have been possible with conventional methods of printing.

Another important change also took place this year. The offices of the publications of the college were moved from their location in the Science Building to more spacious quarters, in the temporary barracks. Here, the staff had the opportunity to spread out its troubles and to decide upon intelligent solutions.

One person responsible for the solution of many problems was the paper's faculty advisor, Mr. Reuben Cooper of the English Department. He often temporarily halted his teaching duties to offer helpful suggestions to the group.

In an effort to maintain a closer relationship among staff members, informal meetings were held at the homes of members, and the staff benefited greatly from the periodic seminars conducted by professionals in the fields of journalism and writing.

It was a year of constant change, but the paper never became so engrossed in these new developments and techniques that it strayed from its basic aim: i.e., to keep the students informed of the latest news and to further the best interests of the students and the college. We feel that we have laid a fresh foundation for future publication of the HIGH HAT upon the solid one already formed by our predecessors. We will only be satisfied that our efforts were not in vain when we learn, in future years, that our contributions have helped future students as much as we hope that they have helped present students of the Division.

STUDENT SENATE ACTS AS AN INTERMEDIARY BETWEEN THE STUDENTS AND THE ADMINISTRATION

In addition to promoting a closer relationship between the students and the faculty, the organization sponsors worthwhile school projects. The Student Handbook, an informative pamphlet distributed by the Senate at the Orientation Program, is compiled and published by the Senate. This year, the Senators planned and sponsored an "OPEN HOUSE" with conducted tours through the buildings for parents and friends.

To foster college spirit and co-operation among the clubs, the Senate holds meetings with the various clubs to plan tea dances and other "get acquainted" activities.

THE JONES BIOLOGY CLUB OFFERS A VARIED AND INTERESTING PROGRAM

Scientific field trips brought the club members to state parks and the Dismal Swamp. After analyzing specimens of plants and animals, the members gathered around a fire to enjoy roasting weiners and marshmallows.

Working together in the spring, the members had an interesting display in the Open House Exhibit.

THE CHEMISTRY CLUB ACQUAINTS MEMBERS WITH PHASES OF CHEMICAL ACTIVITY

Through the media of speakers, movies, and field trips to various chemical organizations in Tidewater, the club is achieving its objective: to promote interest in chemistry and its related fields.

The club meets twice a month, proposes two field trips each semester, and is in charge of the Chemistry Department's entry in the Science Open House in the spring.

On board of the "Castiello Montiel", docked at Newport News, the members enjoyed themselves with Spanish food and music. At college, the club strives to heighten interest in Spanish through a study of music and art of Latin origin. An exhibit marked the interest in arts and crafts; group singing in Spanish, guest soloists, and records provide for the club's musical study.

The club has been fortunate this year in having as its president a native Spaniard, who has been in this country less than a year.

CHAPTER OF UNITED WORLD FEDERALISTS IS ORGANIZED ON CAMPUS

The United World Federalists have undertaken a number of activities including the production of three weekly radio programs over local stations during the summer; they manned booths during the recent petition drive to strengthen the United Nations. In addition they have presented to large audiences movies, debates and prominent speakers.

The only requirement for membership in the organization is an open and inquiring mind. Discussions are held at every meeting, and all who attend have an opportunity to express their opinions.

FORENSIC COUNCIL BEGINS WITH A SMALL BUT POWERFUL NUCLEUS

With the aid of Ed Grimsley, Lew Martin, Bill Moody, William Marlowe, and Francis Lee, the council has risen to be one of the most influential organizations at the Division. The purpose of the Forensic Council is two-fold: to master an audience through a medium of public discussions and debates, and to be familiar with world events.

In the fall, the Forensic Council began its march with a debate on the presidential candidates of the U. S. Debates were held with the following colleges and universities: Eastern Carolina Teachers' College, Randolph-Macon College, Elon College, and the University of Virginia. The climax of a highly successful debating year was the tournament held in Williamsburg with William and Mary. We of the Division are very proud of the Forensic Council, who were judged the winner of the debate.

MASQUERS OPEN SEASON WITH LAURA

Presenting "Laura", a three act suspense thriller by Vera Caspary, the Masquers showed their ability to produce fine entertainment. The cast included vivacious Mary Null and talented Dick Fitz-Gerald. The play, directed by Mrs. Janet B. Kennedy, received much favorable criticism from both students and outsiders.

On December 16, Charles Dickens' "A Christmas Carol" and Stephn Vincent Benet's "A Child is Born" were presented. Ray Bateman and Dick Fitz-Gerald, student directors of the plays, were assisted by Miss Mary B. Gibbs.

Utilizing their combined talents, the Masquers presented a costume dance and variety show in the Division gym on January 31. The success of the dance was exceeded only by the success of the show.

When the final curtain falls and the sets are struck, one must realize that the '48-'49 season will not be their last successful run.

SIGMA EPSILON PI ESTABLISHES FORUM FOR A BETTER UNDERSTANDING OF SCIENCE

Sigma Epsilon Pi is an honorary scientific society organized in the fall of 1930 by science students of the Norfolk Division, under the leadership of Dr. P. G. Jackson.

The purpose of the society is to establish a forum for the exchange of knowledge pertaining to science and its inter-related fields, and to enable the members to understand the breadth of the field of science.

Discontinued during the war years, the society was re-organized in December 15, 1948, under the sponsorship of Mr. Flowers. Both men and women are now eligible for membership. The society holds meetings each week, at which there are speakers, movies, and discussions.

NEWLY ORGANIZED DISTRIBUTIVE EDUCATION CLUB ENGAGES IN BUSTLING ACTIVITY

At meetings held each month, speakers discuss the opportunities in the various fields of buying and personnel work. In the spring, the club planned a trip to Richmond, and the members attended a state conference of Distributive Education clubs. The group also visited the large department stores to acquaint themselves with merchandising.

Just to prove that executives can temporarily halt their merry-making, the officers of the TRI KAPPA Club are shown making valiant attempts at being official while the VOYAGER photographer catches the young ladies and their escorts between a dance. The seriousness with which these officers pursue their regular duties is not to be underestimated by the picture; the occasion is the group's annual Christmas Dance held at the Norfolk Yacht and Country Club on December 23 in conjunction with the COTILLION Club . . . an occasion which defies the rigid formality expected of such dignitaries.

Intent upon having a happy picture taken are these officers of the DELTA Club at the group's annual holiday dance. Ray Bateman, DELTA member and VOYAGER photographer, was delighted to find such co-operation until it was pointed out that the officers were basically interested in a conga line which was rhythmically contorting behind the cameraman's back. The dance was held at the Brith Sholom Center on December 27, 1948.

Either the orchestra has collapsed from exhaustion or these fun-seekers are taking a temporary holiday from the noise and bustle of the dance floor. Whatever the occasion may have been at this particular moment, conversation seems to be the predominant activity although it is highly probable that such was not the case all evening. The scene is TIGA Club's annual holiday dance held at the Commissioned Officers' Club on January 29, 1948. Could it be that they are resting up for the forthcoming evening, New Year's Eve? We doubt it seriously!

Men's Basketball

The Braves can remember the season as being a very successful one. Coach Metheny molded the candidates into a well-balanced basketball team. Bill Roughton was the only returning letterman from last year's team, and Bob Bedinger had won his monogram at St. Helena. Joe Agee and "Sack" Reviere were mainstays of their high school teams before coming to the Division and proved to be welcome additions. Elmer Acey and "Poochie" Bryant had gotten their experience from Norfolk Community League teams. Bill Roughton and John Vitasek were elected by the team as co-captains.

There were no glory boys in the group. Statistics would indicate that the boys took turns to be high scorer.

Men's Lacrosse Team

Lacrosse, after making its Norfolk debut last year, found 19 candidates for the team. Mr. Ed Kovner, coach, arranged a very good schedule, which included trips to Annapolis, Durham and Lexington. Having speed, action, color, and roughness, the sport is enjoyed by the spectators. Since interest in Lacrosse is spreading throughout the colleges of the country, it will inevitably become a more important sport at the Division.
