Abstract

This article briefly summarizes the criteria for election of VAS Academy Fellows and lists all elected Fellows from inception through the Centennial Annual Meeting in 2023.

The Virginia Academy of Science recognizes significant contributions to science and to the Academy by the election of Academy Fellows. Fellows must be active members of the Academy and have contributed to science in one or more of the following ways: outstanding scientific research, inspired teaching of science, or significant leadership in the Academy.

VAS members are invited to submit nominations for Fellows to the Executive Officer of the Academy by October 1 of each year. The nominations require the signature of at least three members, and valid nominations are forwarded to the Awards Committee for review. The Awards Committee reviews the nominations and makes a recommendation to the Academy Council at its spring meeting. Those awarded Fellow status by a majority vote of the Academy Council are recognized at the yearly Annual Meeting, and biographical information is summarized in a subsequent publication of the *Virginia Journal of Science* and/or *Virginia Scientists*.

The first Fellows were recognized in 1970. Table 1 contains a list of all elected Fellows to date. No Fellows were selected in the years not listed. Being recognized as a Fellow is an outstanding recognition and the Academy looks forward to additional recognitions in the future.

Table 1: List of VAS Fellows, 1970 through 2022

<u>1970</u>	<u>1971</u>	<u>1972</u>
Jesse Wakefield Beams John Campbell Forbes Thomas E. Gilmer Boyd H. Harshbarger Roscoe D. Hughes Clyde Young Kramer J. Douglas Reid William T. Sanger	Robert C. Carter Edward S.
